Ti Modified

Reedy's newest, state-of-the-art modified. High-strength C4 Magnets, new "Millennium II" double-winds, and a high-torque armature design creates a more intense magnetic field for quicker spool-up.

- **Today's DOMINANT Touring Car Motor!**
- Titanium-finish new design 1.4 mm vented can
- Improved brush vibration damping system
- Color-coded brush heatsinks
- Dual Ball bearings
- #729 Quasar Touring brushes standard

Reedy's newest stock motor offers both high rpm and high torque... no compromises!

- 24° ROAR legal Rebuildable Stock
- New brush vibration damping system
- 6HL Armature
- New design vented can, C4 High-strength Magnets
- MVP PLUS Includes tuned brushes and a dyno printout

MVP Stock

Fury Modified

Reedy's winning modified motor, created with the needs of Touring Car racers in mind, while producing the torque needed for offroad, and the RPM necessary for onroad. Get the Original... it's furious!

- Standard comm, upright brushes
- 1.4 mm can, 5.2z High-Temp magnets
- Brush vibration damping system
- New-design vented can
- Dual Ball bearings

Badd Maxx

- Machine-wound Horsepower for E-MAXX® Trucks
- Plug-and-Play, no soldering necessary
- 19-Turn "Mild" or 15-Turn "Wild"
- Large, .07 size for higher torque
- Low-friction bushings

Pulse-R

- Machine-wound low-priced Modified
- The latest in motor technology
- Low-friction Bushings
- Vented "Fury" style can
- 5.2z-Class High Temperature Magnets

Sonic 2 Modified

The Team's choice for modified offroad racing. Used to win numerous World and National offroad championships. The ULTIMATE Truck and 4WD Motor!

- **Best Choice for Offroad**
- Large comm, laydown brushes
- 1.4 mm can, M-magnets
- Brush vibration damping system
- Torque-oriented armature laminations
- Dual ball bearings

BATTERIES

Reedy batteries have supplied the power for numerous world champions, both on and offroad. They have been used by European, Asian, and United States National Champions since 1985.

Sanyo Ni-Cd 2400's

- #628 RC2400 Reedy Zappers
- Voltage treated, cycled and matched
- #629 RC2400 Reedy WC Zappers
- Voltage treated, cycled and matched. The top percentage of cells.

Sanyo Ni-MH 3000's

- #625 RC3000 Reedy Zappers
- Voltage treated, cycled and matched
- #626 RC3000 Reedy WC Zappers
- Voltage treated, cycled and matched. The top percentage of cells.

Panasonic Stock Ni-MH

- #623 Reedy Hi-Voltage Ni-MH Zappers
- Voltage treated, cycled and matched
- #624 Reedy High-Voltage Ni-MH WC Zappers
- Voltage treated, cycled and matched. The top percentage of cells.

Reedy AG/CU Battery Bars (6) #651

Reedy Power Connectors (5) #652

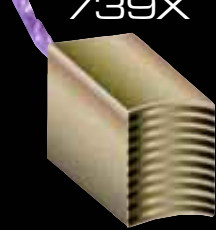

Reedy Motor Brushes

Every Reedy motor brush compound has been extensively tested to maximize power for the type of racing for which each brush was developed, without being destructive to the motor's commutator.

The Offroad compounds were specifically designed to withstand the high-current, high-load conditions found in offroad racing. They have a special lubricating compound that minimizes comm wear, without the usual losses of power found in most other high-lubrication brushes.
