

For Immediate Release: Jan. 29, 2013

## **T4.2 Factory Team Kit** **1:10 Scale 2WD Electric Off Road Competition Truck Kit**

How many ways can you say "winner"?

How about R.O.A.R. National Champion? Since its release in 2003, our RC10T truck series has remained at the top level of national competition, having won eight R.O.A.R. National Championships. Along with this unprecedented achievement of winning more national titles than any truck in its class, comes countless hours spent on research and development to keep improving the T4.

How about Reader's Choice Award? The readers of *Radio Control Car Action* magazine have overwhelmingly voted our 2WD electric truck as the best in its class five times.

How about Truck of the Year? After much deliberation, the editors of *Radio Control Car Action* magazine awarded this prestigious honor to our truck.

The RC10T4.2 kit now comes with the latest Factory Team high-performance option parts like the 12mm "Big Bore" threaded shocks, VTS slipper clutch, blue aluminum bellcrank set, and 12mm wheel hexes, just to name a few. Also included in the T4.2 Factory Team kit is the Pro-Line Bulldog body.

How many ways can you say "winner?" To that list we can now add "RC10T4.2 Factory Team Kit."

# T4.2 FACTORY Team

## 1:10 Scale 2WD Electric Off Road Competition Truck Kit
