NEW! Apex Scion Racing tC Drift version Brushless Powered All-Wheel-Drive Ready-To-Run

The Apex Scion tC Drift version features hard plastic drift-style tires that let you slide and back it in through the corners just like Fredric Aasbø does!

Both of our Apex Scion tC models (Drift and original) come equipped with the same great Reedy and XP running gear, leaving you with only one choice — do you want to grip or drift?

Our Super Drift wheels and tires are also available separately!
