

For Immediate Release: March 20, 2013

NEW! Qualifier Series RIVAL Monster Truck!

Brushless Powered Electric Monster Truck

Turn your backyard into your own car-crunching, ramp-flying, monster truck arena!

Team Associated is proud to bring to you the Rival Monster Truck — a Ready-To-Run brushless-powered, 4WD monster truck in the Qualifier Series! The Rival comes ready to crush the competition with many high-performance features, including the XP 2.4GHz radio system, a Reedy brushless power system, and two 7-cell 8.4 volt Reedy WolfPack batteries wired with Deans® Ultra Plug® Connectors.

The Rival Monster Truck features a super long travel independent suspension that is managed by eight fluid-filled, adjustable coil-over shocks, giving the Rival the ability to roll over just about anything in its path. Giant aggressive monster truck tires provide maximum traction, letting the Rival claw through the toughest terrain with ease. The 4WD drivetrain includes three sealed gear differentials that transfer the power with tough steel CVA drive shafts to both ends of the truck.

RIVAL MONSTER TRUCK

TEAM ASSOCIATED

2 Reedy 7-Cell / 8.4V NiMH WolfPack batteries with Deans® Ultra Plugs® included

XP metal gear steering servo

Powerful Reedy 1515-SL 2000kV brushless motor

Water resistant enclosed receiver box

Water resistant XP SC1300-DB brushless ESC with dual Deans® Ultra Plugs®

XP 2.4GHz radio system for worry-free operation

Big aggressive monster truck tires with bead-lock style wheels

8 adjustable fluid-filled coil-over shocks

RIVAL Monster Truck Features:

- XP SC1300-DB brushless electronic speed control with dual Deans® Ultra Plug®: features independent battery voltage sensing for optimum battery performance (two 2S, 7.4V LiPo maximum)
- Reedy 1515-SL 2000kV brushless motor
- XP 2.4GHz radio system, high torque DS1510MG metal gear servo, and water-resistant receiver box
- 2 Reedy 7-cell/8.4V NiMH WolfPack batteries with Deans® Ultra Plugs® included
- Factory-finished RIVAL monster truck style body
- 3-gear differential drivetrain including a center differential for superior traction and performance
- Big aggressive monster truck tires with bead-lock style wheels that use 1:8 scale type 17mm wheel hexes and locking wheel nuts
- Ultra-rigid aluminum monster truck chassis
- 8 adjustable fluid-filled shock absorbers
- Durable, impact-absorbing bumpers front and rear
- Tough 4mm steel wire roll bar protects the body and chassis during roll-overs and tumbles
- Battery tray holds two 6- or 7-cell NiCd/NiMH or two 2S LiPo battery packs
- 5mm heavy-duty adjustable alloy steel turnbuckles

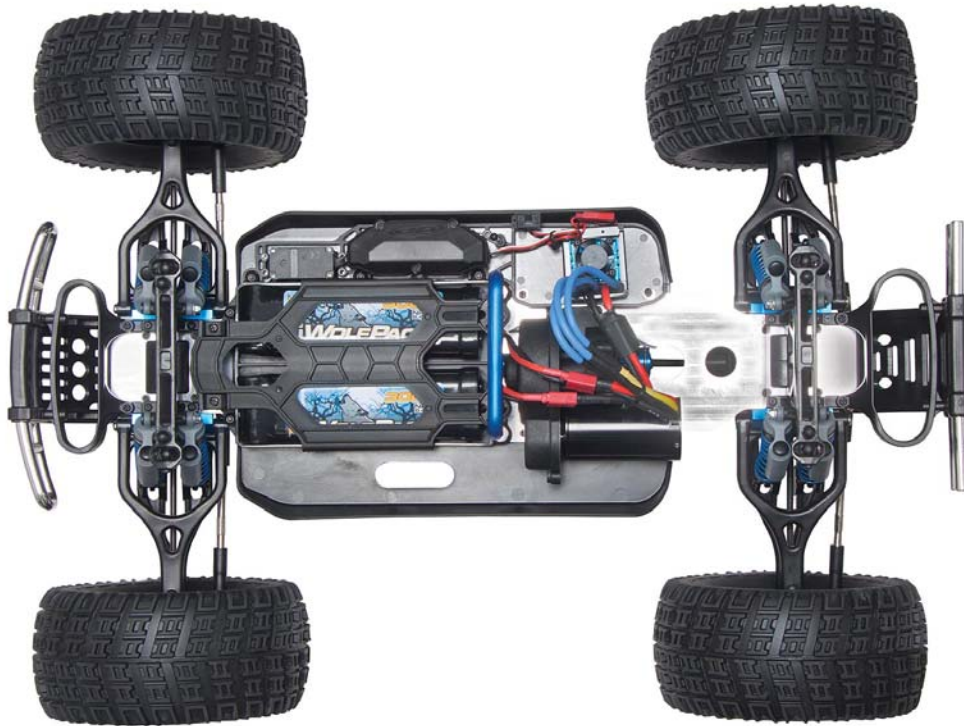

RIVAL Monster Truck Specifications:

| | |
|------------|----------|
| Scale: | 1:8 |
| Power: | Electric |
| Length: | 594mm |
| Width: | 450mm |
| Weight: | 5990g |
| Wheelbase: | 394mm |
| Drive: | 4WD |

Items required for operation:

- Six (6) AA batteries
- NiMH battery charger with Deans® Ultra Plug® Connector
