***Serious 4WD Short Course Performance in a Ready-To-Run!***

## SC104x4 SHORT COURSE

Team Associated's is proud to present the SC10 4x4 Ready-To-Run—R/C replicas of the 800+ horsepower short course race trucks driven in the Lucas Oil Off Road Racing Series. The SC10 4x4 RTR comes with your choice of three different factory finished bodies: the Lucas Oil truck driven by Carl Renezeder, the Pro Comp truck driven by Travis Coyne, and the Rockstar/Makita truck driven by Kyle and Todd LeDuc.

The SC10 4x4 RTR comes packed with unique high-performance features, like the composite modular chassis design with sealed receiver box and removable speed control tray for easy maintenance. 4WD short-course trucks need serious power and the new Reedy 550 SL brushless motor dishes out plenty thanks to the new water-resistant XP SC700 speed control complete with heat sink and fan.

This is one serious 4x4 truck.

RC Car Action Reader's Choice  
and Editor's Choice for  
Innovation of the Year

### SC10 4x4 Ready-To-Run Features:

- XP3-SS 2.4GHz 3-channel radio system with S2008MG high-torque, metal-gear steering servo
- Water-resistant, high-power, LiPo-ready XP SC700 brushless speed control with heat sink fan and Deans® Ultra Plug® battery connector
- Reedy **550-SL** 3500KV 4-pole brushless motor
- Water-resistant enclosed receiver box
- Unique dual gearbox drive train coupled together with a 5mm heavy duty belt system with external tension adjustment
- 32-pitch front and rear gearboxes with sealed fluid-filled differentials
- Decoupled center slipper clutch allows for front and rear wheel drive to slip independently, resulting in more traction and stability on bumpy track conditions
- CVAs with captured drive pins and heavy duty 6mm alloy axles
- 12mm hex drive KMC® replica wheels front and rear with aggressive short-course racing tires.
- Officially licensed replica championship short-course racing body
- 13mm blue aluminum big-bore threaded shocks with low-friction X-ring seals
- Composite modular tub chassis with low-CG and "low polar moment" design
- Removable ESC tray for easy clean-up and maintenance
- Ball-bearing steering system with adjustable steering stops
- All-metric hardware and ball bearings throughout

**550 size 3500kV!**

### Items required for operation:

- Eight (8) AA batteries
- 2S LiPo or 6-cell sub-C rechargeable battery pack with Deans® Ultra Plug®
- Appropriate battery charger

### SC10 4x4 RTR Specifications:

<b>Scale:</b>	1:10
<b>Power:</b>	Electric
<b>Length:</b>	377mm
<b>Width:</b>	293mm
<b>Weight:</b>	2775g*
<b>Wheelbase:</b>	327mm
<b>Internal Gear Ratio:</b>	2.57:1
<b>Drive:</b>	4WD

*\*Weight will vary depending on the battery used.*
