## Apex Scion Racing FR-S GReddy Drift version! Brushless Powered All-Wheel-Drive Ready-To-Run

The Apex Scion FR-S Drift version features hard plastic drift-style tires that let you slide and back it in through the corners just like Ken Gushi does!

Both of our Apex Scion FR-S models (Drift and original) come equipped with the same great Reedy and XP running gear, leaving you with only one choice — do you want to grip or drift?

Either way, we have you covered with our Super Drift wheels and tires that are available separately!
