ProSC 4x4 Ready-To-Run!

Brushless Powered Electric 4WD Short Course Truck

Team Associated is proud to announce the ProSC 4x4 Ready-To-Run — a brushless-powered 4WD off-road short-course truck in the Qualifier Series! The ProSC 4x4 comes ready to rock with many high performance features including the XP 2.4GHz radio system, a Reedy brushless power system and a 7-cell 8.4 volt Reedy WolfPack battery wired with a High Current T-Plug. Additional features include sealed gear differentials front and rear, which are connected together with a tough aluminum drive shaft, as well as an adjustable center slipper clutch to handle all of the Reedy brushless power. The bumps are managed by huge 16mm fluid-filled, coil-over shocks and aggressive, short-course racing tires.

Qualifier Series

The Qualifier Series is Team Associated's exciting line of sport-level products that are designed to be FUN above all else, easy to use, durable, lower cost, and provide an easy way to get into the RC hobby. When great looks and high performance are combined with quality features and value pricing, it becomes the ultimate sport product. Whether you are bashing around with your friends in the backyard or having fun at the local track, the ProSC 4x4 is the perfect vehicle for you!

#7062

2 body color schemes to choose from

BRUSHLESS
Ready-To-Run

15-spoke offroad hex drive wheels
with high-grip racing tires

Heavy duty gear differentials

Huge 16mm Big Bore shocks

Reedy WolfPack 7-Cell 8.4V NiMH Battery
with High Current T-plug Connector

XP 2.4 GHz radio system

Reedy SC800-BL brushless speed control
with High Current T-plug Connector

Reedy 550-SL 3500KV 4-pole brushless motor

ProSC 4x4 Ready-To-Run Features:

- Fully assembled Ready-To-Run shaft-drive 4WD short course truck
- Reedy 550-SL 3500kV 4-pole brushless motor
- Splash-proof Reedy SC800-BL brushless speed control with High Current T-plug Connector (2S-3S LiPo compatible)
- Reedy WolfPack 7-Cell 8.4V NiMH Battery with High Current T-plug Connector
- XP 2.4GHz radio system with XP metal gear digital steering servo
- Factory painted and decaled short course body, available in two color schemes
- 16mm Big Bore composite fluid-filled shocks
- 15-spoke offroad hex drive wheels with high-grip racing tires
- Short-course style front and rear bumpers and improved adjustable body mounts
- Upgraded CVAs and rear dog bones for improved durability
- Heavy duty gear differentials, aluminum drive shaft, and center slipper clutch
- Composite modular chassis with enclosed water-resistant receiver box
