## New! RC10B5 Team Kit

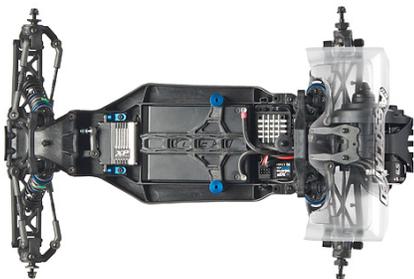

### 1:10 Scale 2WD Electric Off Road Competition Buggy Kit

1:10 scale 2WD off road has been Team Associated's signature racing class since the release of the original RC10 in 1984. The Team Associated RC10 buggy series has won eleven I.F.M.A.R. World Championships since the class began in 1985.

Making the best even better is not an easy task. However, the designers in Area 51 took on the challenge and not only made the B5 better, but they surpassed our expectations. Countless hours of engineering and testing were done with the focus on retaining the performance proven in the B4, while pushing the design to an even higher level.

The RC10B5 is built on a newly designed **narrow tub chassis** that keeps the mass centralized and balanced, improving rough track handling and overall performance. Factory Team parts like **12mm "Big Bore" threaded shocks** and **VTS slipper clutch** come standard in the B5 Team Kit!

Welcome to the future — your RC10B5 Team Kit is waiting for you!

*Narrow tub chassis*

*12mm "Big Bore" threaded shocks*

*VTS slipper clutch*

# RC10 B5 TEAM KIT

1:10 Scale 2WD Electric Off Road Competition Buggy Kit

Steering and caster block insert system allows for easy caster and trailing axle adjustments

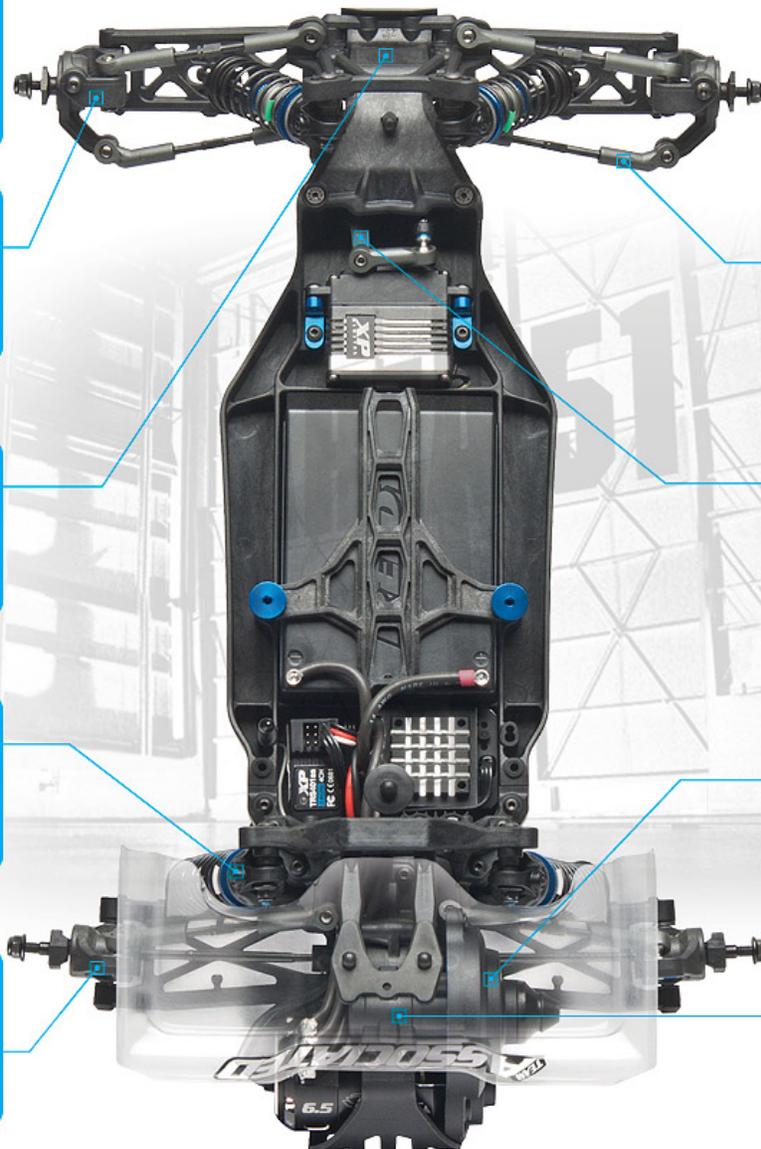

Adjustable front suspension mount angle 'kick-up' options of 25° and 30°

Factory Team V2 12mm "Big Bore" threaded aluminum shocks with 3mm shock shafts

Rear hubs feature larger bearings and insert system to adjust camber link and rear toe-in

Heavy-duty lubricated ball cups reduce friction while increasing durability

Updated steering system with horizontal ball studs for finer Ackermann adjustments

Factory Team VTS slipper clutch with high-resolution spring for finer adjustments

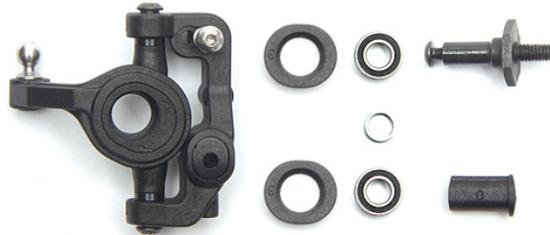

New transmission has stronger gears and a 14 carbide ball differential

## RC10B5 Team Kit Features:

- Narrowed composite tub chassis with centralized mass, optimized motor position, metric hardware, and fits R.O.A.R.-approved 2S saddle packs, 2S short packs, and 2S square packs
- Factory Team V2 12mm "Big Bore" threaded aluminum shocks with 3mm shock shafts and updated O-rings for improved smoothness
- Factory Team VTS (Variable Torque multi-plate Slipper) with three drive surfaces and high-resolution spring
- New transmission has stronger gears, precision ball bearings, and a 14 carbide ball differential for increased life and torque capacity
- New front suspension features heavy-duty steering and caster blocks, while the insert system allows for easy caster and trailing axle adjustments
- Adjustable front suspension mount angle kick-up options of 25° and 30° are included
- One-piece front axle/hex adapter and larger front wheel bearing for added durability
- Heavy-duty lubricated ball cups and optimized ball studs allow for maximum suspension travel while reducing binding and friction
- Updated full bearing steering system with horizontal ball studs for finer Ackermann adjustments
- Rear hubs feature larger bearings as well as the quick and easy insert system to adjust camber link position and rear toe-in
- B5 clear body and wing included

*New transmission has stronger gears, precision ball bearings, and a 14 carbide ball differential*

*Steering and caster block steering insert system allows for easy caster and trailing axle adjustments*

*Adjustable front suspension mount angle kick-up options of 25° and 30°*

## Required to Complete

- 1:10 scale electric motor
- 1:10 scale electronic speed control
- 7.4V LiPo or 6.0V LiFe battery (saddle pack, shorty pack, or square pack)
- Battery charger (able to charge one of the batteries mentioned above)
- 2-channel surface transmitter, and its batteries
- 2-channel receiver
- Steering servo
- Pinion gear (48 pitch)
- Polycarbonate-specific spray paint for body
- 1:10 scale buggy tires for 2.2" wheels
- Glue for tires and wheels

## Vehicle Specifications

Power Source	Electric
Terrain	Off-Road
Body Style	Buggy
Scale Size	1:10 Scale
Assembly Level	Kit**
Length	385mm
Width	Varies*
Wheelbase	279-281mm
Weight	Varies*
Drive	2WD

\*Final width and weight will vary with the actual electronics and tires used to complete the B5 Team Kit.

\*\*RC10B5 Team Kit shown equipped with items NOT included in kit; Reedy motor, Reedy battery, Reedy ESC, XP servo, XP receiver, tires and pinion gear. Body comes clear. Assembly and painting required.

UPC: 784695 900011	#90001	RC10B5 Team Kit	MSRP: \$389.99	MAP: \$239.97	Available: February 2014
