Monster GT 4.60 SE RTR Truck

Factory Team: blue extruded chassis

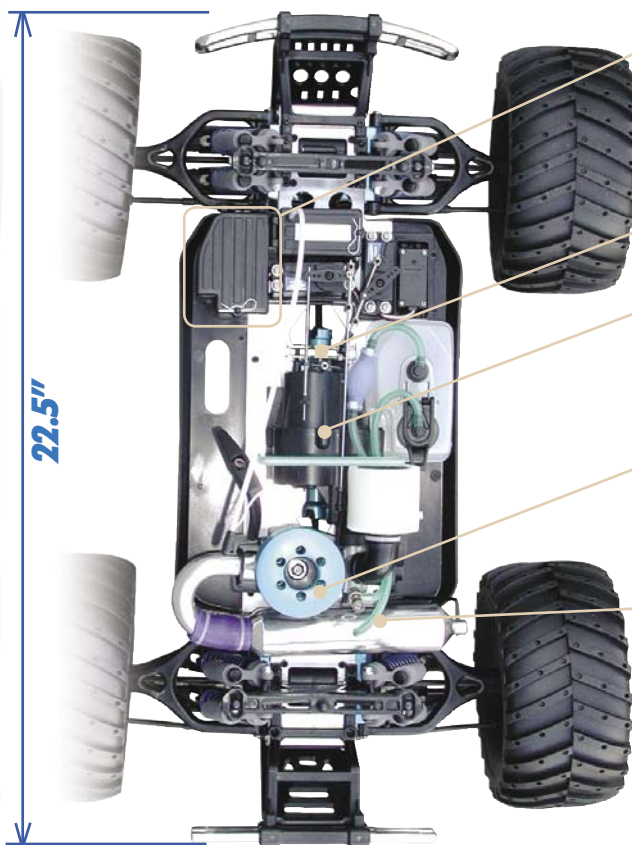

Factory Team: blue nuts

Factory Team: "Robo-Disc"

Factory Team: titanium turnbuckles

Features

- Sealed receiver box protects radio gear from dirt, dust and moisture. All radio gear easily removeable (with just four screws) for truck cleaning.
- Massive single-disc brake for positive, no-fade stopping power.
- 2-speed transmission equipped with tough steel gears and steel CVAs that are up to the job of handling the massive torque.
- AE 4.60 Engine with the unique MGT Dual-Start system: Convenient pull start or hex-shaft/drill start combined in one unit!
- High-performance tuned racing pipe with single outlet diverts exhaust out the bottom of the truck.
- Two painted body styles to choose from.

RTR = assembled

Preassembled with either of two painted body styles

Huge 6 5/8" diameter all-terrain tires

XP3 3-channel AM radio system—steering dual-rate, steering trim, throttle trim, high and low throttle end-point adjustments.
