SC10

SHORT COURSE

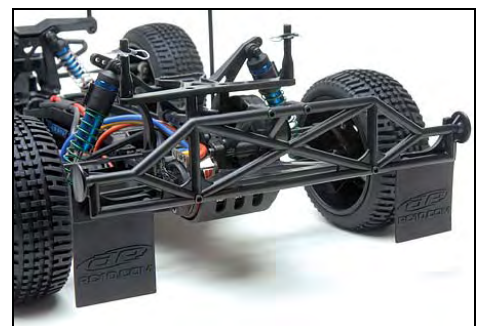

SC10 1:10 Scale Electric 2WD Short Course Race Truck Kit

Finally, you can now have Team Associated's world-class performance with true scale authenticity in a 1:10 scale electric short course truck! Team Associated is proud to bring to you the SC10—a 1:10 scale electric 2WD off road, authentic short course race-truck kit.

Based on a lengthened version of the 6-time ROAR National Championship-winning RC10T4, the engineers behind the doors in Area-51 made the SC10 both all show and all go! The result is the SC10 kit, an authentic scale racing experience.

The SC10 comes ready to assemble with a clear short course race-truck body, KMC™ style wheels, aggressive tread multi-terrain tires, all which have been designed to look just like the full-size race trucks that run in short course off-road series around the country. The world of high-performance 1:10 scale electric R/C has never before seen this level of scale accuracy! It's easy to see that the SC10 is another champion by design!

See next page for more features!

#7027

SC10 1:10 Scale Electric 2WD Short Course Race Truck Kit

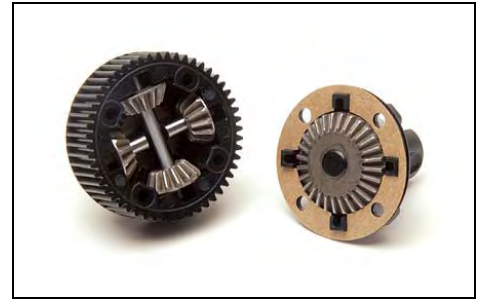

MSRP: \$299.99

UPC: 84695 07027
