

New Product. For Immediate Release: April 5, 2010

SC10 Factory Team Kit 1:10 Scale 2WD Electric Short Course Race Truck

After winning the R.O.A.R. Short Course Nationals Team Associated's engineers got to work on taking the SC10 to the next level. Improvements were made to enhance performance and durability, as well as applying the full Factory Team treatment! The result is the SC10 Factory Team Kit; a 1:10 scale electric 2WD off road short course competition race truck kit!

Based on the 7-time R.O.A.R. National Champion RC10T4, the engineers of Area-51 configured the SC10 for all out racing. The SC10 Factory Team kit is loaded full of high performance features including JConcepts Subcultures rear tires, Factory Team V2 threaded shocks, V2 slipper clutch, ball differential with lightened outrives, and an optimized setup to make the best handling SC10 to date!

Right: CVA joints with pin retainer clips

#7034

SC10 Factory Team Kit
MSRP: \$409.99
UPC: 84695 07034
Availability: June 2010

Scale:	1:10
