

New Product. For Immediate Release: April 20, 2009

## RC8Te 1:8 Scale 4WD Electric Truggy Kit IN STOCK AND SHIPPING!

Team Associated is proud to release the RC8Te, a 1:8 scale electric-powered competition truggy kit based on the championship-winning RC8T platform!

The RC8Te engineering team has developed a practical design that incorporates the same exceptional strength, durability, cornering capability, jumping ability, and rough track handling that characterize the nitro-powered RC8T.

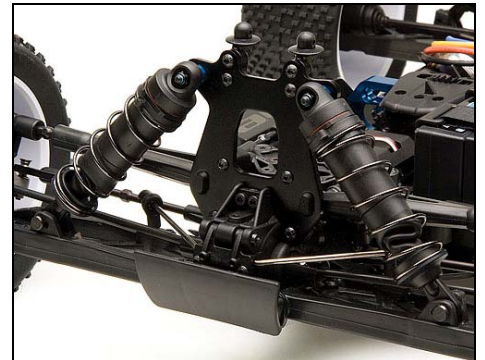

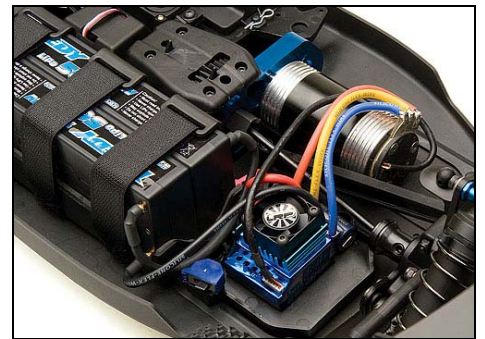

With special features such as a hard-anodized machined chassis, correctly balanced and optimized weight distribution, composite Big Bore shocks featuring 4mm gold shafts, upgraded steering system, and lightweight wheels, every inch of the RC8Te screams high-performance and durability.

Enjoying the awesome performance, convenience, and cleanliness of electric power has never been easier!

### RC8Te Kit Features:

- Molded battery tray supports two ROAR-approved 1:10 scale size 7.4v LiPo battery packs with room for foam pads
- Receiver box, servo, and battery tray remove from car in one piece for easy maintenance and cleaning
- Convenient wire routing keeps critical electronic wires out of drive-train components and simplifies disassembly
- Includes pinion gear (16T) and molded composite spur gear (50T)
- Rigid one-piece motor mount utilizes standard motor screw mounting pattern
- Large elevated speed control mounting area allows for easy screw mounting of common speed controllers
- Upgraded dual bell-crank steering for more consistent steering and reduced bump-steer
- 16mm Big-Bore molded composite shocks with pre-load clips
- Hard anodized 7075-T6 aluminum chassis
- 3mm aluminum shock towers
- Durable 12mm thick suspension arms
- Rear molded CVA boots to keep dirt and mud out of rear joints

**See next page for more features!**

- Alloy steel turnbuckles
- Caster blocks adjust 14, 16, or 18 degrees with molded inserts
- Adjustable suspension pivot bushings for different pivot height options
- 4.30:1 ratio gearboxes
- 3.5mm light CVA drivetrain
- Pre-drilled wing with adjustable angle and location
- Blue aluminum drive hexes
- Blue aluminum nylock wheel nuts
- AE LPR lightweight truggy wheels (#89360)
- Utilizes 3 hook-and-loop straps to secure LiPo batteries into battery tray
- Enclosed receiver box to protect electronic components
- 1.5mm thickness unpainted polycarbonate RC8T body
- *ELECTRONIC COMPONENTS NOT INCLUDED*

### RC8Te Specifications

Scale	1:8
Power	Electric
Length	571mm
Width	429mm
Track	352mm
Weight*	3628g
Wheelbase	375mm
Internal Gear Ratio	4.30:1
Drive	4WD

\*Actual weight will vary depending on the electronics used in the finished kit.

Associated recommends the following battery for maximum performance:

**#709** Reedy LiPo 5000mAh  
7.4V 35C battery

**80911**  
RC8Te 1:8 Scale 4WD Electric Truggy Kit  
MSRP: \$669.99  
UPC: 84695 80911  
Availability: Now Available
