# RC10

**THE OFF-ROAD  
WORLD CHAMPION**

**AND** the car that won the ROAR Nationals for 1986, '87, '88, and '89--outrunning the best the world could offer!

The RC10 is manufactured in America. Spare parts and accessories are on-the-shelf items at the Associated factory, and are readily available in hobby shops throughout the world.

## **1/10 SCALE ELECTRIC R/C OFF-ROAD RACE CAR**

All kits include the following:

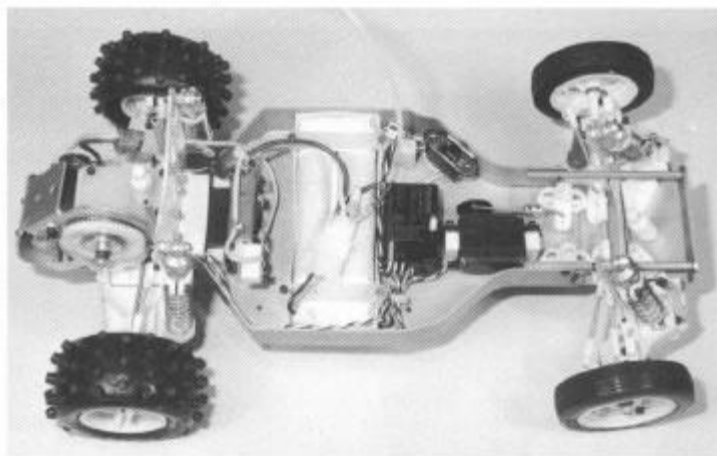

- Heat treated, gold anodized aircraft aluminum chassis tub.
- Replaceable gold anodized nose (skid) plate.
- Adjustable wheelbase.
- Two spring sets, low and high rate.
- High volume hydraulic shocks, double O-ring sealed, gold anodized.
- Adjustable limited-slip ball dif.
- Servo saver, linkage and universal servo mounts fit most radios.
- Prelubricated oilite bushings throughout (except ball bearing kits).

- Quick-change battery and body mounting hardware.
- High traction pneumatic tires, knobby rears, grooved fronts.
- Quick-change knock-off rear hubs are key-locked to the axle.
- High-impact nylon wheels.
- Quality screws throughout. Allen cap, button, flat head, and aluminum flat head.
- Step-by-step assembly instructions, with photos of every step.

### **SOME KITS INCLUDE ALL OR PART OF THE FOLLOWING:**

- Yokomo stock class 05 motor.
- Heavy-duty throttle resistor, wiper, bypass, and mounting bracket.
- 16 gauge silicon wiring harness, with dropping diodes for radio.
- Durable clear Lexan body shell, with driver and adjustable wing.
- 6-cell Ni-Cad pack and Fast-charge Cord.
- Precision ball bearing set, 16 bearings total.

All kits come packaged in a durable, four-color carton which can serve as a handy parts and toolbox at the race track. These cars will work with any radio system, but steering wheel radios with ultra-mini sized servos are preferred (see Radio section, page 6).

## RC10 GRAPHITE!

(see page 4)

An updated, competition version of the World Champion RC10, The RC10 Graphite has advanced features to satisfy the most demanding, serious racer: New longer front A-arms with two new shock mounting positions. New inline front axle and steering blocks which greatly improve the steering. New front shock towers which give more ideal shock mounting positions. New rear universal-dogbone/stub axle, giving freer suspension. New rear hub carriers with more toe-in for greater stability. New turnbuckles for easier adjustments. New idler gears which are strong enough even for monster truck conversions.

#6025 RC10 Graphite Kit, less all electrical, less ball bearings	\$250.00
#6030 RC10 Graphite Kit, less all electrical, with ball bearings	\$325.00

## NEW MOTORS!
