Monster GT RTR Truck

Factory Team: blue extruded chassis

Factory Team: blue nuts

Factory Team: blue .21 engine head

Factory Team: brake disc

NEW!

Features

- Sealed receiver box protects radio gear from dirt, dust and moisture. All radio gear easily removeable (with just four screws) for truck cleaning.
- Unique dual-pickup fuel tank keeps fuel flow continuous even when the truck is upside down! Patented fuel bulb primer pump.
- AE Pro-21 Engine with the unique MGT Dual-Start system: Convenient pull start or hex-shaft/drill start combined in one unit!
- High-performance tuned racing pipe with single outlet diverts exhaust out the bottom of the truck.
- Massive single-disc brake for positive, no-fade stopping power.
- Two painted body styles to choose from.

Preassembled with either of two painted body styles

Huge 6 5/8" diameter all-terrain tires

XP3 3-channel AM radio system--steering dual-rate, steering trim, throttle trim, high and low throttle end-point adjustents.
