RC10T4 Truck Kit

Factory Team: aluminum

Factory Team: titanium

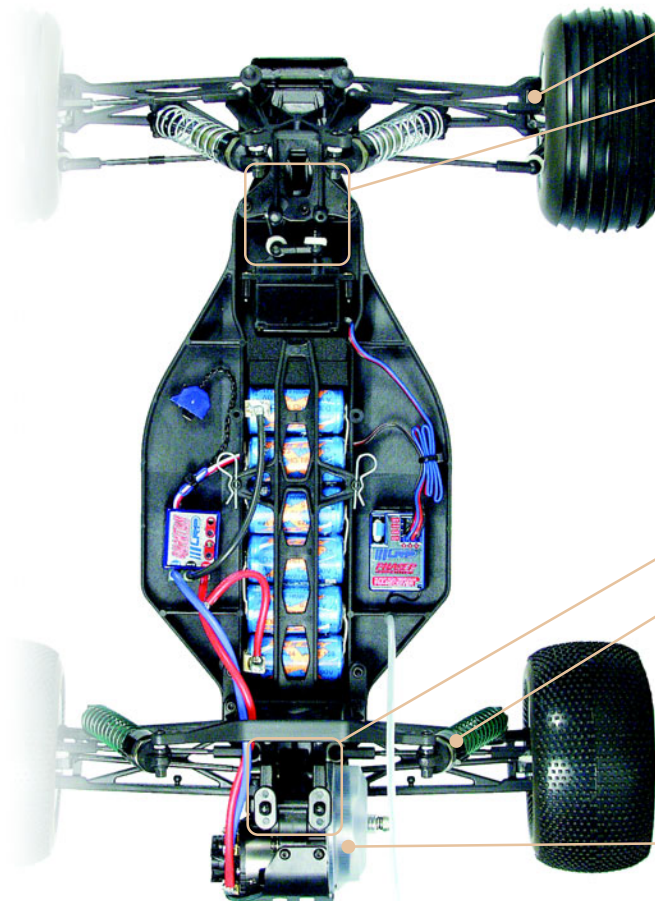

Factory Team: threaded bodies

Factory Team: carbon

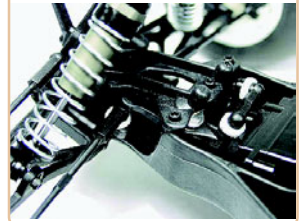

NEW!

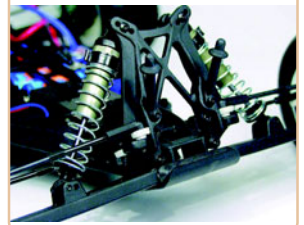

Features

- Fully adjustable caster, camber, toe-in, and shock position.
- Angled bellcrank steering minimizes bump steer to maintain constant steering angles throughout the full range of suspension travel.
- Front shocks are mounted behind the shock towers. All four suspension arms are the same length, and the "captured" hinge pin design uses no e-clips.
- Unpainted Pro-Line body.
- New 2.60:1 laydown Stealth transmission.
- MIP CVDs and PTFE-coated shocks.
- Sealed ball bearings.
- Lower motor, battery, body and wing mounting positions give the T4 a lower CG for higher cornering speeds and greater stability.
- Kimbrough spur gear included.

Angled bellcrank minimizes bump steer

Front shocks mounted behind front tower

Longer CVD dog bones and axles
